Summary

Full Stack Developer with expertise in building scalable web applications using the MERN stack and Next.js. Passionate about crafting efficient, user-centric solutions through clean code and modern architecture. Combines strong technical skills in API development, database optimization, and frontend performance with a research background in AI and Machine Learning. Committed to delivering high-quality software that solves real-world problems.

Skills

Languages: Python, JavaScript(ES6+), TypeScript, Go Lang, HTML, SQL, CSS, Bash

Frontend: React.js, Next.js, Angular, Three.js, Redux, React Query, Tailwind CSS, Shadcn UI, Framer Motion

Backend: Node.js, Express.js, Nest.js, RESTful APIs, Microservices, GraphQL, JWT, OAuth

Databases: MongoDB, PostgreSQL, MySQL, SQLite, Redis, Mongoose, Prisma

Tools & Technologies: Git, Docker, Vercel, Netlify, Firebase, CI/CD, Linux, VS Code

Work Experience

Full Stack Developer (Contract)

Jan 2026 – Present

Sendian Group

Al Rayyan, Qatar

- Delivered 4 production websites using WordPress with custom themes and plugins, streamlining digital presence and client engagement for both internal operations and external stakeholders.
- Built and deployed a Progressive Web Application (PWA) inventory management system using React with responsive, mobile-first architecture, enabling real-time stock tracking and business operations across desktop and mobile devices.
- Reduced manual task overhead for internal teams and clients by developing user-friendly, task-focused applications with Next.js, Vue, and React, automating workflows and improving operational efficiency by eliminating repetitive processes.

Full Stack Developer

July 2025 – Dec 2025

Origa Networks Pvt. Ltd.

Ernakulam, India

- Delivered multiple client web platforms in short timelines with high performance and code quality, boosting client satisfaction and user growth.
- Built and scaled Entetile, a tile-management SaaS, using Next.js (frontend) and Express (backend) to support multi-vendor stock and delivery workflows.
- Developed Midas Gold websites with custom business logic and admin dashboards for real-time gold-rate conversion and monitoring, improving decision speed for stakeholders.

Backend Developer

Jan 2025 – Jun 2025

Thinkbid Technologies Pvt. Ltd.

Kozhikode, India

- Assisted backend development for the Deal Buddy™ app by contributing to core services and coordinating with frontend and QA teams to support reliable releases.
- Increased premium user sign-ups by developing the subscription feature in Node.js and Nest.js and integrating optimized REST APIs with the frontend.
- Supported a multi-tenant B2B procurement and vendor-management platform by implementing business-specific backend logic and API integrations in Node.js and Nest.js.

MERN Stack Developer Intern

Jul 2024 – Dec 2025

Luminar Technolab Pvt. Ltd.

Kochi, India

- Developed full-stack applications using MongoDB, Express.js, React, and Node.js, additionally working with MEAN stack, Angular, TypeScript, and RxJS for diverse project requirements.
- Collaborated with cross-functional teams to implement RESTful APIs and optimize database performance.
- Secured Node.js backend against SQL injection and XSS attacks using Express Validator and Helmet.js, achieving zero critical vulnerabilities in penetration tests.

Projects

Entetile: Tiles Management Admin Dashboard | Next.js, React, TypeScript, React Query, Redux

Aug 2025

- Built a production-grade tiles shop admin dashboard as a modern Next.js single-page application with responsive UI for inventory, sales, customer, and staff management.
- Optimized dashboard rendering and data flows using React Query caching, Redux for global state, and API call reduction techniques to improve perceived load and navigation speed.
- Implemented advanced UX features such as debounced search, refined filter logic, and interactive Recharts-based analytics for real-time visibility into orders, stock, and warehouse activity.

AI-Powered Fitness Workout Personalization Platform | Next.js, React, Node.js, PostgreSQL, MongoDB, n8n

July 2025

- Built a responsive Next.js interface that lets users configure goals, equipment, and fitness level, surfacing personalized AI-generated workout plans with clear, mobile-friendly layouts.
- Designed an intuitive onboarding flow with multi-step forms and progressive disclosure, reducing friction for new users and improving completion rates compared with a basic single-page form pattern.
- Implemented performant data handling for user accounts and payments with optimized API calls and client-side caching, supporting fast page transitions and secure interactions at scale.

Football Tournament Management Platform | *React.js, Node.js, Express.js, MongoDB, Redux, Tailwind CSS* Jan 2025

- Developed a responsive React interface for managing fixtures, player bidding, ticket sales, and real-time match updates, enabling organizers to control the entire tournament from a single dashboard.
- Built interactive live-score and updates views using WebSocket-driven components and YouTube Live integration so fans can follow matches and streams directly on the site.
- Optimized MongoDB-backed tables and pagination on the frontend to handle 1,000+ daily active users with faster load times and smooth navigation across fixtures, scores, and news pages.

Education

Bachelor of Technology in Computer Science and Engineering <i>MEA Engineering College</i> Relevant Coursework: Data Structures, Algorithms, DBMS, Web Development, ML	Aug 2020 – Jun 2024 <i>Kerala, India</i>
---	---

Certifications

- | | |
|---|------|
| • Certified MERN Stack Developer
<i>Luminar Technolab</i> — MongoDB, Express.js, React.js, Node.js | 2025 |
| • Meta Front-End Developer Professional Certificate
<i>Coursera</i> — React, JavaScript, HTML/CSS, Version Control, UI/UX | 2024 |

Publications

- **Book:** Sign Language Transformation: AI-Enabled Communication for the Deaf (Machine Learning, CNN & RNN).
Published On: Springer, Singapore. Authors: Muhammed Farsin K, Mirdas CK, Ashfaque PK, Abdul Shahid Pallath (February '25)

Additional Information

- **Languages:** English (Fluent), Malayalam (Native), Hindi (Intermediate)
- **Volunteer Experience:** NSS MEA SB Volunteer & IEEE MEA Student Branch Member
